BODY TREATMENTS

Body Exfoliation

30 minutes

Exfoliation is a vital deep-cleansing technique whereby accumulated dead cells are gently scrubbed away to reveal fresh, radiant skin. A selection of natural blends is used to nourish and buff the skin, improving cell regeneration and blood circulation. The therapy is concluded with a hydrating application of body butter.

- **Himalayan Rice Scrub**

An ancient Indian preparation; this blend replenishes moisture and restores the skin's natural sheen. Almond powder and grains of Himalayan rice work together to gently remove dead skin cells, revealing a satin-smooth texture as your body takes on a noticeably brighter tone.

Body Envelopment

30 minutes

The treatment starts with a full body brushing to prepare the body for a wrap. The application of a masque follows, and the body is cocooned in a warmth-inducing wrap to facilitate natural detoxification, firming and nourishment. Relax with a dry head massage while the masque is working its way into the deeper layers of your skin.

- **Indian Sandalwood**

A centuries-old concoction from India, this masque draws out impurities and deeply conditions the skin. Your therapist lathers your body with the smooth-textured salve, forming a snug sheath of nourishment. Your skin is rejuvenated and bathed in the sweet, earthy aromas of sandalwood that cling to you enticingly for the rest of the day.
