About Gurgaon

About Gurgaon

Gurgaon is one of the four major satellite cities of Delhi located about 30 kilometres south of the Capital, in Haryana. A sleepy suburb just a few years ago, Gurgaon today has all the trappings of a growing, modern commercial centre, branded as the 'Millennium City'.

Due to its proximity to Delhi, Gurgaon has gone through the same turbulence and transformation as the capital - from the glorious era of the Mughals in the medieval period to the British rule in early 19th century.

From a land of farmers and soldiers, Gurgaon is now a new-age corporate centre, home to many Fortune 500 companies, banks and IT majors. Gurgaon was voted the 'Best City in India' to work and live in, according to a survey by Business Today magazine. Gurgaon has the third highest per capita income in India and boasts of some of the best shopping malls in Asia. The city is well connected by rail and metro to the entire National Capital Region. Strategically linked to the historical cities of Jaipur and Agra by road, Gurgaon has much to offer to business and leisure travellers.

Safety & Security

SAFETY

Trident is equipped with state-of-the-art fire detection systems from Johnson Controls to ensure your safety. Smoke detectors from Honeywell International have been installed in all areas of the hotel, including guest rooms. The fire detection system is monitored at all times.

In the unlikely event of a fire:

Telephone the hotel Operator immediately to report the fire by touching '55'.

If possible, close the doors around the fire, to prevent it from spreading further.

Do not try to fight the fire unless you are certain there is no risk and the fire is very small.

Leave your room, take the room key and close the door after you.

Go to the Reception area.

Please use the fire exit. Do not use the elevators.

EMERGENCY EVACUATION AREA

In case of fire, the fire exit staircases will be the only means to exit the building. A 'refuge area', is a secure zone with access to fresh air, where people can safely congregate when the staircases are filled with smoke or when asked to leave in phases.

The Hotel has refuge areas located at the courtyard. The refuge area is indicated with signage on the fire exit door leading to it. Guests are advised to move to the refuge area in the following circumstances:

1. The Fire Exit staircase is filled with smoke and it is not possible to use the staircase to evacuate the building.
2. You are unable to move downwards due to health or other physical problems.

Guests are requested not to panic in a refuge area, since they would be evacuated with the help of the Fire Brigade or once the staircases are safe to use.

FIRE DOOR

Automatic fire doors are installed throughout the hotel, including the guest room corridors, to contain the spread of fire and smoke in the event of an emergency. These doors are designed specifically to check the transmission of heat, smoke and fire. Each guest room corridor of the hotel has automatic fire doors at four locations, which assist in isolating a section in the event of a fire. These are held open electronically and are connected to the central fire alarm system of the hotel.

Upon activation of a smoke alarm or upon manual activation of a fire alarm, the concerned fire doors will shut automatically. The hotel's emergency response team will arrive shortly to investigate the cause of the alarm. If it is a false alarm or once the situation is under control, they will reset the fire doors in their original open position.

Safety & Security

IF YOU FIND A FIRE

- Activate the nearest alarm
- Call the Hotel Telephone Operator on extension 0 or 555.
- Leave the building if possible using the exit staircase; DO NOT USE THE ELEVATORS

IF EVACUATING UPON HEARING THE FIRE ALARM

- Take your room key card and move cautiously.
- Feel the door and handle with the palm of your hand. If the door or handle is hot or abnormally warm, don't open it. If the door is not hot, open it carefully, but be ready to close it immediately if you see excessive smoke or flames on the other side.
- If there is smoke in the corridor, stay as low as possible. Crawl on your hands and knees, if necessary. There are self-glowing signs at skirting level to guide you.
- Proceed to the nearest emergency exit. Always stay calm. If it gets hot as you go down, do not proceed.
- If your exit is blocked or the fire is on the lower floors, go back to your room or to the emergency evacuation area and wait for help to come.
- Never attempt to use the elevator in case of fire.
- Most fatalities occur from inhalation of smoke and poisonous gases, not from burning. Always stay as low to the ground if there is any smoke present.

IF YOU MUST REMAIN IN YOUR ROOM

- Don't panic. You can stay in your room and still survive a fire.
- Turn off the air-conditioning.
- Fill the bath-tub with water (as a water reserve only).
- Phone in your location to the hotel telephone operator. Wedge wet towels and sheets around door seals and air vents. Use the waste basket to bail water from the bath-tub if smoke seeps in.
- Remove drapes from the window.
- If smoke still enters your room, make a tent over your head with a wet blanket. As a last resort, if the air becomes too smoke-laden, it may be necessary to allow some fresh air in. If absolutely necessary, break a window with furniture available in the room. Do not break a window if smoke or flames are rising outside from a lower floor.

IF A FIRE STARTS IN YOUR ROOM

- Evacuate your room immediately. Switch off the air conditioning. Take your room key card with you.
- Close the door securely behind you.
- Activate a fire alarm and notify your immediate neighbours
- Call the hotel telephone operator from the nearest phone and then walk to safety via the closest emergency exit.
- DO NOT USE THE ELEVATORS

SAFETY TIPS

Please observe the location of fire exits, and in the unlikely event of fire or smoke, stay calm and proceed to the nearest exit, staying beneath the level of smoke. To avoid further accidents, notify any disability or illness upon check-in or as soon as possible afterwards. If an emergency should arise in your area, the hotel personnel can extend special assistance immediately.

Please call the hotel operator if you observe a fire or smoke in any part of the hotel.
